

Free Energy Efficiency Webinars

Find out how to make your home more energy efficient this winter

Action for Warm Homes

Book now

Energy Efficiency in the Home February 2022

At National Energy Action (NEA NI) we are concerned that higher energy prices, reduced incomes, and leaky, inefficient housing could put many households in Northern Ireland at increased risk of fuel poverty this coming winter. These increases come at a time when many household budgets are already stretched thin.

However, at NEA we know that some simple changes to day-to-day activities could make big differences to household bills.

To assist households, NEA, supported by the Consumer Council (CCNI) are providing **FREE Energy Efficiency information sessions** online across Northern Ireland.

The following topics are included:

- Impact of living in a cold, damp home
- Taking control - understanding your heating system
- Energy efficiency low cost/no cost top tips
- Keeping the heat where it is needed – reducing heat loss
- Causes of and remedies for condensation
- Comparing and switching energy suppliers
- Advice and Support

Events are delivered online via zoom so you'll need an internet connection and access to speakers so you can hear us.

The next 3 events are a taking place on the following dates:

Tuesday 8th February - 10am-1130am (click on link to book)
